WE SUPPLY

NOISE-PROOF TELEPHONE BOOTHS

For Every Kind of Service

The Telephone Booth has become a very necessary part of the "up-to-date" office, store, and factory equipment, insuring privacy and satisfactory telephone service which could not otherwise be had.

Complete Satisfaction in long distance telephone service is only obtained by excluding outside noises.

The Noise-proof Telephone Booth will afford this and complete your scheme of private codes and cyphers.

Standard Sizes in Various Sizes and Finishes . . .

ALSO

SPECIAL BOOTHS

Patented Features:

VENTILATION
CONSTRUCTION
RECEDING DOOR

WE CAN DELIVER AND INSTALL A BOOTH IN TWENTY-FOUR HOURS

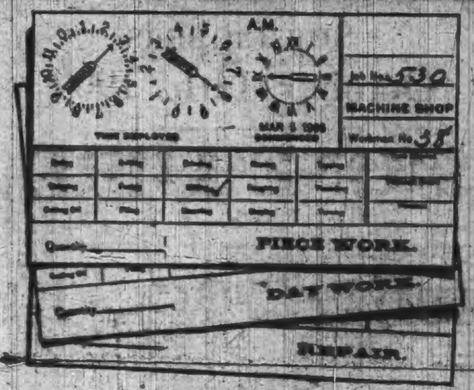
FACTORY·COST·ACCOUNTING

CALCULAGRAPH—
Operation when commencing work.



CALCULAGRAPH—
Operation when work is stopped.

THE CALCULAGRAPH

computes and prints elapsed time—the time that each workman spends on his job. It saves clerical labor and makes no clerical errors. It saves the time of mechanics and thus increases production.

Gang Boss telephoning Workman's time in our department

THE TELEPHONE

is used in many manufacturing plants in connection with the CALCULAGRAPH. The beginning and end of each job and all changes of jobs are reported over the telephone to a central time-keeping station by sub-foremen, gang-boss or workmen. Thus the workman never leaves his working-place and loses no time in travel to and from a time-recording machine.

By this system one factory employing 850 men SAVED $15,000 PER YEAR. Another factory by using Calculagraphs and Telephones INCREASED PRODUCTION 5 per cent. Ask for our booklet which tells how.
